

Cassie Wagstaff Photoprints

1. Homepage

- Welcome!

2. About Us

- Picture of myself
- Cassie Wagstaff has been interested in photography for most of her life. She got her first camera when she was 12 years old and her first DSLR when she was 18 years old. Between high school yearbook committee and college photography courses, Cassie has learned a lot.
- Cassie started printing her photographs a year ago. She quickly discovered that clients loved to have their photographs printed for them as well. So between photoshoots and editing, she is also running to the print shop to order and pick up those prints for clients.
- Cassie prints through Quick Ship and Copy in Rexburg, Idaho. Check out her pricing {link}. She can print at multiple sizes, which can also be found on the pricing page. Quick Ship and Copy has been a very reliable printing location. Cassie hopes to one day own her own printer and work on everything herself.
- Most of Cassie's clients are in Rexburg. But she is willing to ship prints to clients outside of Rexburg, with a small shipping fee.
- Cassie is also willing to take portraiture photography for those who specifically contact her. Please contact {link} her for your next session! Photoprints can be included.
 - a. Testimonials
 - If you'd like to add a testimonial, please do through the contact page {link}!
 - "I love printing with Cassie Wagstaff Photoprints. The prints come out so pristine and colorful. Her work is absolutely beautiful! I bought a copy of the 'Bannock House' and love it. It hangs right in my living room above our fireplace. I also bought a copy of the 'Dew Rose' which hangs in my daughters nursery. I receive so many compliments on her art and definitely plan on purchasing more."
-- Tamara S., Shelley, ID.
 - "Cassie Wagstaff Photoprints has been a very reliable printing source. I don't trust those online distributors who aren't personable. Cassie Wagstaff includes a personal note in each package and often has included coupons for our next purchase."
-- Sarah P., Marysville, WA.

- "My wife absolutely loves Cassie Wagstaff Photoprints. Not only does Cassie take our family pictures, but she also supplies us with beautiful prints to hang around our home. These make the perfect gift for another person at such a great price!"

-- Andrew A., Rexburg, ID.

- Cassie Wagstaff Photoprints is excited to announce that we are starting to also offer wedding invites and holiday cards. We have a few options already available. If you would like something to be custom made, please contact us through the contact page {link}. We will be able to set up a consultation from there to customize your ideas and design.

i. Wedding invites (Portfolio of designs)

ii. Holiday cards (Portfolio of designs)

c. Special Offers

- Cassie Wagstaff Photoprints is offering a special deal from November 1 to December 16. Get 30% off your order of holiday cards this year!

4. Portfolio

a. Landscape (each photo will include the history of the photograph with a link to buy it)

- Landscape photography has a way of showing the world in a different way. It shows us how vast and never-ending the world really is. Most landscape photography does not

show any human influence, but rather shows the true beauty of the earth itself. It is broad and spectacular. The natural environment around us is incredible and mesmerizing.

- Tetons (Will be taking photos this semester for COMM 316)
 - i. Popular prints
 - * I will be choosing these photos later after I get some photos from my COMM 316 class in a couple weeks.
 - b. Macro (each photo will include the history of the photograph with a link to buy it)
 - Macro photography can capture absolutely stunning shots. All it takes is some creativity and patience. This type of photography takes time as the photographer waits for the just the right exposure and focus. Sometimes in a macro photography, the viewer cannot see what the big picture is. However, the image is still so incredible as it is so close.

 - c. Fine Art (each photo will include the history of the photograph with a link to buy it)
 - Fine art photography involves a lot of different types of photography. It all depends on the photographer. Anyone can go out and take a picture of something and call it art. However, fine art is something that is thought out. It is a piece that takes time. The piece also has some sort of artistic statement. There is something different about fine art that brings beauty to the simplest of things.
